Guide

BENTON HARBOR • SAINT JOSEPH
SWMICHIGAN.ORG

Where
good-for-you
tastes delicious.

For over 100 years, our farms and markets have been one of the biggest draws to Southwest Michigan. The climate and soil just beyond Lake Michigan are perfect for growing an ever-expanding list of fruits, vegetables, herbs, flowers, dairy, meat and Christmas trees. It's a given you can eat healthier in Southwest Michigan. What is extraordinary is the flavor.

Our farmers are exceptional, too. Many are from families who have worked the land for generations. They warmly welcome you to their farms, to see where your food grows, pick your own or gather up ready-picked produce from their stands or community markets. Visit the websites listed in this guide to learn what each farm harvests between May and December. Then go home with your favorites.
